

# Omni Directional Soil Surfactant

#### **GENERAL INFORMATION**

Aquifer is a soil surfactant designed to establish consistent hydration and water flow into and throughout the rootzone. Aquifer is easy to use and will not harm turf when used in accordance with product directions. When used as directed, Aquifer can be applied at any time of the year to avoid the detrimental impact of water repellency stress and localized dry spots on turf and to increase the vigorous appearance of turfgrass. Aquifer is safe to turf when used as recommended.
