

COMAND® GREENS-GRADE MICROBIAL TURFBUILDER

prepared with care
IN FLORIDA BY

1/16 Inch Particle size

**Improves Soil Health
By Rebuilding Soil Microbiology**

The Greens Grade COMAND has zero woody particles and looks just like black granules. Product can be applied and swept into the canopy of the closest mowed greens without causing issues to playability of the surface.

- The first defense to boost weak turf areas
- Recover quicker after aerification
- Use to rebuild soil health of greens
- Use straight, or blend with sand.

1/16" COMAND is the ultimate source of stabilized organic carbon / soil building humus.

Take COMAND of your greens health.
