| Hazard statement                             | Harmful if swallowed. Causes sk<br>irritation.  | in irritation. Ca | auses serious eye irritation. May cause respiratory   |
| Precautionary statement                      |   |                   |   |
| Prevention                                   |   |                   | y after handling. Do not eat, drink or smoke when ell-ventilated area. Wear protective gloves. Wear |
| Response                                     | If swallowed: Call a poison center/doctor if you feel unwell. If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. Specific treatment (see this label). Rinse mouth. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. |                   |   |
| Storage                                      | Store in a well-ventilated place.   | Keep containe     | r tightly closed. Store locked up.  |
| Disposal                                     | Dispose of contents/container in  | accordance w      | vith local/regional/national/international regulations.   |
| Hazard(s) not otherwise<br>classified (HNOC) | Not classified.   |                   |   |

#### Supplemental information

1% of the mixture consists of component(s) of unknown acute oral toxicity.

# 3. Composition/information on ingredients

#### Mixtures

### Hazardous components

| Chemical name                        | Common name and synonyms | CAS number | %          |
|--------------------------------------|--------------------------|------------|------------|
| Magnesium Nitrate                    |                          | 10377-60-3 | 30 - < 40* |
| Urea                                 |                          | 57-13-6    | < 1*       |
| Other components below reportable le | evels                    |            | 60 - < 70  |

Other components below reportable levels

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

| 4. First-aid measures  |   |
|--|---|
| Inhalation   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.   |
| Skin contact   | Remove contaminated clothing. Wash off with soap and plenty of water. If skin irritation occurs: Get medical advice/attention.  |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Continue rinsing. Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists.   |
| Ingestion  | Rinse mouth. IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.   |
| Most important<br>symptoms/effects, acute and<br>delayed                     | Irritation of eyes and mucous membranes.  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Provide general supportive measures and treat symptomatically. Keep victim warm. In case of shortness of breath, give oxygen. Keep victim under observation. Symptoms may be delayed.   |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. In the case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). Wash contaminated clothing before reuse. |

### 5. Fire-fighting measures

| Suitable extinguishing media                                     | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).                                   |
|--|---|
| Unsuitable extinguishing media                                   | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| Specific hazards arising from the chemical                       | During fire, gases hazardous to health may be formed.   |
| Special protective equipment<br>and precautions for firefighters | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| Fire-fighting<br>equipment/instructions                          | Move containers from fire area if you can do so without risk.                                 |
| Specific methods   | Move container from fire area if it can be done without risk.                                 |
| 6. Accidental release meas                                       | sures   |

#### Personal precautions, Keep people away from and upwind of spill/leak. Keep out of low areas. Keep unnecessary personnel away. Wear appropriate personal protective equipment. Do not touch damaged protective equipment and emergency procedures containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the MSDS. Methods and materials for Stop the flow of material, if this is without risk. containment and cleaning up Large Spills: Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills in original containers for re-use. For waste disposal, see section 13 of the MSDS. **Environmental precautions** Avoid discharge into drains, water courses or onto the ground. 7. Handling and storage Precautions for safe handling Do not taste or swallow. Avoid breathing mist or vapor. Avoid contact with skin. Avoid contact with eyes. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. When using, do not eat, drink or smoke. Observe good industrial hygiene

practices. Wash hands thoroughly after handling.

## 8. Exposure controls/personal protection

| Components                          | Туре   | Value                | Form               |
|-------------------------------------|--|----------------------|--------------------|
| Urea (CAS 57-13-6)                  | TWA  | 10 mg/m3             | Total particulate. |
| Biological limit values             | No biological exposure limits noted fo   | r the ingredient(s). |                    |
| Appropriate engineering<br>controls | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station. |                      |                    |
| Individual protection measure       | s, such as personal protective equipme   | ent                  |                    |
| Eye/face protection                 | Wear eye/face protection. Wear safety glasses with side shields (or goggles).  |                      |                    |
| Skin protection                     |  |                      |                    |
| Hand protection                     | Wear protective gloves.  |                      |                    |
| Other                               | Wear appropriate chemical resistant clothing.  |                      |                    |
| <b>Respiratory protection</b>       | In case of insufficient ventilation, wear suitable respiratory equipment.  |                      |                    |
| Thermal hazards                     | Wear appropriate thermal protective clothing, when necessary.  |                      |                    |
| General hygiene<br>considerations   | When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  |                      |                    |

# 9. Physical and chemical properties

| Appearance                                 | Liquid.                             |
|--|-------------------------------------|
| Physical state                             | Liquid.                             |
| Form                                       | Liquid. Aqueous solution.           |
| Color                                      | Clear colorless or nearly colorless |
| Odor                                       | None.                               |
| Odor threshold                             | Not available.                      |
| рН   | 2.5 - 4.5 (typical)                 |
| Salt-Out / Crystallization Temp            | < 32 °F (< 0 °C) estimated          |
| Melting point                              | Not available.                      |

# 10. Stability and reactivity

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport. |
|---------------------------------------|---|
| Chemical stability                    | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions | No dangerous reaction known under conditions of normal use.                                   |
| Conditions to avoid                   | Contact with incompatible materials.  |
| Incompatible materials                | Strong oxidizing agents.  |
| Hazardous decomposition<br>products   | No hazardous decomposition products are known.  |

## 11. Toxicological information

### Information on likely routes of exposure

| Ingestion  | Harmful if swallowed.  |
|--|--|
| Inhalation   | Prolonged inhalation may be harmful. May cause irritation to the respiratory system. May cause damage to organs by inhalation. |
| Skin contact   | Causes skin irritation.  |
| Eye contact  | Causes serious eye irritation.   |
| Symptoms related to the<br>physical, chemical and<br>toxicological characteristics | Irritant effects.  |
| Information on toxicological ef  | fects  |

#### Acute toxicity

Harmful if swallowed. May cause respiratory irritation.

| Acute toxicity                                   | Harmul II swallowed. May cause respiratory imitation                          | Jn.                                    |
|--|---|--|
| Components                                       | Species   | Test Results                           |
| Urea (CAS 57-13-6)                               |   |  |
| Acute  |   |  |
| Oral   |   |  |
| LD50   | Rat   | 8471 mg/kg                             |
|  | Sheep   | 28500 mg/kg                            |
| * Estimates for product may b                    | be based on additional component data not shown.                              |  |
| Skin corrosion/irritation                        | Causes skin irritation.   |  |
| Serious eye damage/eye<br>irritation             | Causes serious eye irritation.  |  |
| <b>Respiratory sensitization</b>                 | Not available.  |  |
| Skin sensitization                               | Not available.  |  |
| Germ cell mutagenicity                           | No data available to indicate product or any compo<br>mutagenic or genotoxic. | nents present at greater than 0.1% are |
| Carcinogenicity                                  | This product is not considered to be a carcinogen b                           | by IARC, ACGIH, NTP, or OSHA.          |
| Reproductive toxicity                            | Not available.  |  |
| Specific target organ toxicity - single exposure | Respiratory tract irritation.   |  |
| Specific target organ toxicity -                 | Not available.  |  |

## 12. Ecological information

The product is not classified as environmentally hazardous. However, this does not exclude the sill

|                                       | possibility  | that large or frequent spills can have a harm  | ful or damaging effect on the environment. |  |
|---------------------------------------|--|--|--|--|
| Components                            |  | Species  | Test Results                               |  |
| Urea (CAS 57-13-6)                    |  |  |  |  |

| ther adverse effects                  |  | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.  |  |  |
| 3. Disposal consideratio              | ons  |  |  |  |
| isposal instructions                  | and its cor<br>sewers/wa<br>container.   | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. |  |  |
| azardous waste code                   |  | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |  |  |
| aste from residues / unused<br>oducts | product re   | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).   |  |  |
| ontaminated packaging                 | Empty containers should be taken to an approved waste handling site for recycling or disposal.<br>Since emptied containers may retain product residue, follow label warnings even after container is |  |  |  |

## 14. Transport information

#### DOT

Not regulated as dangerous goods.

#### ΙΑΤΑ

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

### 15. Regulatory information

```
US federal regulations
```

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication

Standard, 29 CFR 1910.1200.

#### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

emptied.

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

#### SARA 304 Emergency release notification

Not regulated.
