

Micro HUMIC PLUS S Greens Grade

- 100 sgn greens grade supplying essential Ca, S and Carbon to the soil
- Contains Solu-C S Enhanced Dihydrate Gypsum and Activated Humic Acid
- Remediate sodium for soils with high salt levels
- Increases soil CEC to improve nutrient performance
- Natural source Carbon to increase microbial population
- Addresses soil compaction in heavy soils
- Increases soil aeration and water
- Adds Ca and Sulfate S without moving soil pH
- Contains 8% Activated Humic Acid OMRI, CDFA, WSDA approved

PRODUCT SPECIFICATION:

Enhanced Pelletized Gypsum with
8% Activated Humic / Fulvic Acid
Particle size- 100 SGN
Bulk Density- 57 lbs / cubic ft.
Product Code- 22025 (50lb bag)

TYPICAL ANALYSIS :

Calcium Sulfate (CaSO₄) 70.0%
Calcium Sulfate Dihydrate
(CaSO₄ – 2H₂O) 89.0%
Calcium (Ca) 19.0%
Sulfur (S) Combined 15.0%

CONTAINS :

Gypsum (Calcium Sulfate Dihydrate).
8% Activated Humic / Fulvic Acid
4% Lignosulfonates as a plant based
binding agent
Moisture (Maximum) <1.0%

Application Rates:

50lb bag covers 12,000 sq.ft.
Apply at 185 lbs per acre to deliver 14
lbs Activated Humic / Fulvic Acid/A.

Apply to dry turf and irrigate with enough
water to move particles to soil.

Available in Bulk, 2,000lb Bulk Bags and 50lb Bag
