

Do you put your Soil First?

Take care of the soil and it will take care of you.

Earthworks Aerification Program

Build and revitalize your soil by adding carbon and minerals at the time of aerification so that they can blend throughout the entire rootzone. Apply Renovate Plus and Myco Replenish before topdressing and drag into greens.

Renovate Plus
10-20 lbs./1000sq. ft.

- Stimulate Soil Biology
- Encourages Quick Recovery of "Dead Spots"
- Faster Recovery
- Deeper Rooting
- Sodium and Bicarbonate management
- Nutrient Mobility
- Pathogen Suppression
- Soil Drainage

Myco Replenish
10-20 lbs./1000sq. ft.

Sodium and Bicarbonate Flush Program

Removes Sodium and Bicarbonates from the root zone. Apply S04, then tank mix of Kick, Cal Vantage, and Kapre Exalt. Apply 1 - 4 times per month, based on rain and soil conditions.

- Detoxifies Soil Pollutants
- Stimulates Microbial Activity
- Corrects Compacted Soils
- Fights Localized Dry spots
- Prevents Surface Sealing
- Promotes Healthy Root Growth
- Helps to Re-establish Proper Soil Structure
- Protects Roots from Dehydration

Kick
10 oz./1000 sq. ft.

Cal Vantage
10 oz./1000 sq. ft.

S04
5-10 lbs. /1000 sq. ft.

Kapre Exalt
1 qt./acre
