

Exteris™ Stressgard®

Active Ingredients: fluopyram (SDHI) + trifloxystrobin (QoI)
FRAC Code: 7 + 11 (SDHI + QoI)
Systemicity: acropetal
Formulation: suspension concentrate
Signal Word: caution
Mode of Action: Complex II and Complex III respiration inhibitors

Overview

Exteris™ Stressgard® is a new fungicide in the SDHI class of chemistry that is combined with trifloxystrobin to provide preventative and curative control of foliar turf diseases including dollar spot, brown patch, gray leaf spot and Microdochium patch. The unique formulation delivers enhanced plant health benefits along with improved turf quality.

Key features

- New turf SDHI active ingredient (fluopyram) with proven QoI partner (trifloxystrobin)
- New Bayer innovation with dual stacked formulation technology

Key benefits

- Broad spectrum disease control - dollar spot, brown patch, gray leaf spot and Microdochium patch
- Program flexibility for greens, tees and fairways
- Preventative and curative activity
- Enhanced turf quality and plant health benefits associated with Stressgard Formulation Technology
- Quick dry time and absorption
- Fast curative activity across range of spray volumes
- Dew mitigation properties

How to use Exteris Stressgard

Apply Exteris Stressgard when conditions are favorable for disease as part of an integrated management program on greens, tees and fairways. Exteris Stressgard can be combined with Signature™ Xtra Stressgard in an anthracnose management program for enhanced turf quality. For control of pink or gray snow mold, tank-mix Exteris Stressgard with Mirage® Stressgard.

Update

Mix Partners For Exteris™ Stressgard®

Exteris Stressgard has demonstrated excellent tank mix compatibility with a number of other turf products.

Compatibility Tank-Mix Partner

-  26GT®
-  Affirm™ WDG
-  Banner MAXX®
-  Banol®
-  Bayleton® 50
-  Bayleton FLO
-  Briskway®
-  Clearys 3336®F
-  Compass® 50 WG
-  Concert® II
-  Daconil Action™
-  Daconil Ultrex®
-  Daconil Weather Stik®
-  Daconil Zn®
-  Eagle® 20 EW
-  Endorse® WP
-  Fame™ SC
-  Fiata® Stressgard®
-  Fore® 80WP Rainshield®
-  Headway®
-  Heritage® Action
-  Heritage TL
-  Insignia® SC Intrinsic®
-  Insignia® WG
-  Interface® Stressgard
-  Lexicon® Intrinsic

Compatibility Tank-Mix Partner

-  Medallion® SC
-  Mirage® Stressgard
-  Nortica® 10 WP
-  Prostar® 70 WG
-  Secure®
-  Segway®
-  Signature™ XTRA Stressgard
-  Spectro® 90 WDG
-  Subdue MAXX®
-  Tartan® Stressgard
-  Tourney®
-  Trinity®
-  Velista™
-  Xzemplar®

 **Compatible, order of mixing unimportant**
 **Incompatible**

Many factors can impact compatibility such as pH of water, free radicals in solution and other tank mix additives. This form is not a substitute for performing a jar test with the specific mixture which will be sprayed.
