BRANDT Reaction®

BRANDT REACTION is a unique line of soil applied nutrients with a patented technology that delays the chemical fixation of phosphorus and potassium with other nutrients or elements in the soil. It keeps nutrients available in the soil solution for up to 26 weeks, which enhances nutrient availability, uptake and utilization. BRANDT REACTION products are especially useful in high alkaline, calcareous and acidic soils; and can withstand most hostile soil and water conditions.

BRANDT® Agra Sol

AGRA SOL dry soluble powder chelates to supply key micronutrients to plants and turf at a great value. They mix easily with water and can be applied alone, added to dry granular fertilizers or applied with non-phosphorus liquid fertilizers.
