VENTURE CACONDITIONER

Increases water penetration and drainage by loosening compacted soils
Decreases harmful excess salts | Safe and environmentally friendly

Venture CACONDITIONER is a highly concentrated formulation engineered to reduce excess sodium content in soil, while increasing water penetration by loosening compacted media. Due to these soil loosening properties, Venture CACONDITIONER also greatly improves soil drainage, which can provide relief to waterlogged turf and crops.

The super-concentrated nature of Venture CACONDITIONER makes the treatment of compacted soil, sewer and leach deposits that are located in single gallons of Venture CACONDITIONER, equivalent to more than 800 pounds of granular gypsum. Additionally, Venture CACONDITIONER leverages patent pending agent technology to increase its penetration power and overall efficacy.

APPLICATION: 1 quart of Venture CACONDITIONER contains more available calcium than 100 pounds of dry gypsum. Application rates will be contingent upon soil analysis.

Golf Ventures VENTURE CaCONDITIONER

Venture CaConditioner is a hyper-concentrated formulation engineered to reduce excess sodium content in soil, whilst increasing water penetration by loosening compacted media. Due to these soil-loosening properties, Venture CaConditioner also greatly improves soil drainage, which can provide relief to waterlogged turf and crops.

The hyper-concentrated nature of Venture CaConditioner makes the treatment of compacted soil, easier and less expensive than ever before; a single gallon of Venture CaConditioner contains more available calcium than 800 pounds of granular gypsum. Additionally, Venture CaConditioner leverages potent supplemental wetting agent technology to increase its penetration power and overall efficacy.

- ✓ INCREASE SOIL POROSITY AND AERATION WHILE REDUCING SOIL COMPACTION.
- ✓ IMPROVES DRAINAGE WHILE GREATLY REDUCING EROSION.
- ✓ DECREASES HARMFUL EXCESS SALTS
- ✓ INCREASES SOIL CEC (CATION-EXCHANGE CAPACITY).
- ✓ SAFE AND ENVIRONMENTALLY FRIENDLY
- ✓ REDUCES TURF THATCH BUILDUP DUE TO COMPACTED SOILS RESULTING IN STRONGER ROOT SYSTEMS.
- ✓ NON-TOXIC AND MAY BE USED ON BARE SOILS, TURF, ORNAMENTAL FRUITS AND VEGETABLES.

Application:

1 gallon of Venture CaConditioner contains more available calcium than 800 pounds of dry gypsum. Application rates will be contingent upon soil analysis.

H315 Causes skin irritation.

Prevention | P264 Wash skin thoroughly after handling | P280 Wear eye protection/ face protection
P280 Wear protective gloves.
