VENTURE

80/20 WITH AMMONIUM SULFATE

AMS

State-of-the-art wetting agent technology helps to spread spray solution evenly across treated plants and aids in penetration | Increases coverage and efficacy of spray solution, saving time and money | Compatible with a wide range of fertilizers and pesticides
Contains AMS to promote plant uptake | Alcohol-free and nonflammable

Venture AMS is a specialty surfactant designed to increase coverage, penetration and overall-efficacy of a wide range of herbicides and fertilizer solutions. In addition to state-of-the-art wetting agent technology, Venture AMS also contains ammonium sulfate (AMS) to promote plant uptake of spray solution, ensuring maximum performance.

Venture AMS is alcohol-free, nonflammable, and is formulated to be readily dispersible and compatible with a wide range of fertilizer and pesticide mixtures. Many pesticides will have stated adjuvant use-rates on their labels. In all cases, the pesticide manufacturer's label should be consulted and followed regarding specific adjuvant usage recommendations.

DIRECTIONS: Fill spray tank half full with water and begin agitation. Add pesticides as directed by label, once thoroughly mixed, add selected rate of Venture AMS as suggested by the label of pesticide being used.

Insecticides, Fungicides, Acaracides:
Herbicides, Defolants, Desiccants:
Foliar Nutrients:
Spraying right of ways and Non-crop areas:

4 oz. to 16 oz. of Venture AMS per 100 gallons
8 oz. to 64 oz. of Venture AMS per 100 gallons
12 oz. to 32 oz. of Venture AMS per 100 gallons
16 oz. to 32 oz. of Venture AMS per 100 gallons
