

VENTURE HUME TABLETS & APPLICATOR

VENTURE HUME TABLETS

100% ACTIVE WETTING AGENT TABLETS + HUMIC ACID

Venture Hume tablets excel at treating localized dry spots and hydrophobic soil media, whilst also delivering a highly-bioavailable blend of Humic and Fulvic acids directly to a plant's root system.

USAGE :

Venture Hume tablets are designed to treat localized dry spots and hydrophobic soil media.

Venture Hume tablets should be applied via a proper hose-end applicator and will slowly dissolve over the course of application.

A single Venture Hume tablet will last approximately 20 to 30 minutes and can spot treat 6 to 7 averaged-sized golf greens. Rate of dissolution will depend upon water pressure and temperature.
