

Brandt Foamy

Foam Marker

General Information

FOAMY reduces overlapping and skipping of areas when spraying liquid pesticides, herbicides, fungicides, or fertilizers. FOAMY produces a white foam that will not harm soil or skin. When used with a simple process activated by air pressure, FOAMY is dropped in neat, foamy balls along the edge of the spray area.

Directions for Use

Use one gallon of FOAMY to 50-90 gallons of water for thick, rich foam. Adjustments to ratios may be made depending upon water hardness. Mix 1.25 - 2 oz. of FOAMY to one gallon of water. Due to the fact that foam generating tanks vary in size, the following formula (based on the 1% rate) will make calculating easy:

$\text{Tank Size (gal)} \times 1.28 = \text{oz. per tank of FOAMY}$

Fill foam generating tank half full of water. Add FOAMY. Finish filling tank with water.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

STORAGE AND HANDLING

Keep from freezing. If stored in cold or freezing weather, product may separate or thicken. This will not harm the performance. Before using, allow to warm to room temperature and stir thoroughly. Do not reuse container.

Manufactured For:
Brandt Consolidated, Inc.
2935 South Koke Mill Road
Springfield, Illinois 62711 USA

BRANDT

Principal Functioning Agents

A blend of Sodium Alkyl Polyoxyethylene Sulfate, Cocamidopropyl Betaine, Sodium Lauroyl Sarcosinate, and Sodium Pyroglutamate	40.0%
Constituents Ineffective as Spray Adjuvants	60.0%
Total	100.0%

CAUTION: KEEP OUT OF REACH OF CHILDREN

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue to rinse. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.
IF SWALLOWED: Call a poison control center of doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

Warranty: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.

Net Contents: 1 Gallon. Packaged 4 x 1 gal.
